

Table showing the results of the experiments conducted in the laboratory during the year 1905.

Experiment No.	Temperature (°C)	Pressure (mm Hg)	Volume (liters)	Time (minutes)	Observations
1	25	760	100	15	Normal reaction
2	30	750	100	20	Increased rate
3	35	740	100	25	Very rapid
4	40	730	100	30	Excessively fast
5	45	720	100	35	Reaction complete
6	50	710	100	40	Immediate reaction
7	55	700	100	45	Very vigorous
8	60	690	100	50	Explosive
9	65	680	100	55	Violent
10	70	670	100	60	Very violent
